SCHOOL DISCIPLINARY POLICY INCLUDING ANTI-BULLYING, VANDALISM AND OTHER DISCIPLINARY ISSUE

Deliberate damage to school property, causing intentional physical, emotional or psychological harm to other students in school and an indisciplinary act committed by student, directly affect the education of the students and reflects their loss of intrinsic balance and effective self-regulation.

The Disciplinary Committee undertakes strict measures in order to ensure discipline in school and a positive learning environment among students. The committee prohibits acts of harassment, intimidation or bullying and advocates appropriate behavioural standards and code of conduct for all students. The committee observes zero tolerance for indisciplinary actions, act of vandalism, and bullying by students and takes effective measures in the matters of all concerns on immediate basis.

Anti Bullying Policy

Bullying is behaviour by an individual, repeated over time that intentionally hurts another individual or group. It can be in the physical, verbal, emotional or cyber domain. It is any act or gesture (written, verbal, graphic, or physical) that is reasonably perceived as being dehumanizing, intimidating, hostile, humiliating and threatening and likely to evoke fear of physical harm or emotional distress.

The following types of bullying behaviour are included in this non-exhaustive definition

- Deliberate exclusion, malicious gossip and other forms of relational bullying,
- Cyber-bullying,
- Identity-based bullying such as homophobic bullying, racist bullying,
- Bullying of those with disabilities or special educational needs.
- Hurtful public message, image or statement on a social network site or other public forum
- Where that message, image or statement can be viewed and/or repeated by other people will be regarded as bullying

Bullying undermines and dilutes the quality of education. Research shows that bullying can have short and long-term effects on the physical and mental well-being of pupils, on engagement with school, on self-confidence and on the ability to pursue ambitions and interests. Therefore, the policy aims to create an environment where students can grow and flourish without fear.

An anti-bullying policy should always endeavor to complement a school's policy on behavior and discipline. There is also a need to regularly reinforce and review the policy so that newcomers to the school understand the school's stance on bullying and so that existing pupils and parents are reminded that bullying, in whatever form, will never be tolerated.
