

Academic Heights World School - An Insight

-A Pioneer in Education 4.0-

At AHWS, "We Teach Life.."

We are committed to innovation, academic excellence, and fulfilling the evolving needs of 21st century education all while equipping our students for real-world success.

AHWS is a distinguished member of the 110+ schools in the Academic Heights Chain across India. The school is affiliated to CBSE board, aiming to provide standard curriculum to students. The school stands out due to its unwavering commitment to setting new standards in education. It aims at empowering students to become self-reliant individuals who possess both self-awareness and social consciousness.

Our prime **USP** is the holistic development of our students. The teaching-learning process aims at nurturing the balanced growth of students by focusing on their academic skills, social abilities, emotional intelligence, physical health, mental strength, spiritual awareness, and values.

Besides having a **world-class infrastructure**, AHWS has a **forward-thinking educational approach**. Our incredible SPROUT Curriculum aims at enabling students to learn deeply, think critically, speak confidently, and present effectively. The **SPROUT Curriculum is future-focused, a child-centric framework** that integrates the **most effective teaching methods** and **best educational practices** to help our students **learn, evolve, and thrive** in school as well as in life.

Keeping in sync with NEP, we have a robust Experiential Learning framework, enabling students to learn by doing, explore through experience, and retain knowledge in meaningful ways. We follow a multidisciplinary approach - the progressive **STEAM Education Model**, encouraging curiosity, creativity, and problem-solving to prepare students for the future world of innovation and collaboration. The school Strongly emphasizes **Personality Development**, helps students build confidence, self-awareness, and an adaptable mindset.

Besides, we provide a **structured program in Public Speaking and theatre to equip students** with fluent Communication and instil confidence in them.

A **world-class English Language Acquisition & Communication Skills**, Program has been provided to develop all round personalities of the students.

We promote **Project-Based Learning** to deepen the students understanding and cultivate essential skills.

AHWS uses the latest technology to promote active learning. Some of our lead highlights are:

-Speak-O-Pen Technology

The interactive Speak-O-Pen supports correct pronunciation, and learning of spelling, enables easy revision, and reinforces concepts through audiovisual engagement.

-Educational Wall- (X Wall)

It is a visually engaging and interactive wall placed in our campus to spark curiosity, support self-paced learning, and encourage observation and exploration.

The **Smart Panels in every classroom** bring lessons to life and enhance the teaching-learning process

Our Well-Equipped and State-of-the-art Science, Math, Computer, and Robotics Labs are designed to ignite curiosity and innovation.

Hands-on experiments, STEAM activities, and AI-integrated tools prepare our students for the future with real-world skills.

Sports and Physical Fitness are an integral part of our education. They are significantly instrumental in promoting all-round development of students. Proper facilities and professional coaches are provided for outdoor and indoor sports.

In sync with CBSE's health initiatives, the school initiates Thalassemia Awareness Talks, Sugar & oil Drives, and regular yoga & fitness sessions are a part of our comprehensive curriculum. To conclude, at AHWS-

We don't just educate; we empower.

We don't just teach; we ignite transformation.

We don't just inform; we awaken inspiration.
